

## Case Study #31

- Client Category:** A potential client wanted to determine the effectiveness of **Custom GT-Tabs** versus the product that they were currently using.
- Location:** A restaurant in Pennsylvania, USA
- Physical Plant:** A single 1000 gallon greasetrap
- Problem:** **High BOD**  
Grease accumulation  
Bad odors
- Previous Treatment:** Prior to treatment, a competitors product was used. BOD, Grease and odors were reduced but not reduced under the surcharge limit.
- Custom Treatment:** **Custom GT-Tabs** were applied directly into the greasetrap at a rate of 1 every 2 weeks.  
  
The trap was not pumped during the testing period.
- Custom Results:** BOD was significantly reduced to within acceptable parameters. Grease and odors were also reduced.
